

## TRICARE Regional Transitions by State & FI with Dates

This document is a state by state breakdown of all of the changes that have occurred and are scheduled to occur and includes the state, former region, new region, former claims processor, former payer ID, new claims processor, new payer ID, and the effective date for each change. The information has been sorted three ways for you: 1) by State, 2) by Effective Date, and 3) by Former Payer ID.

### **Note**

There are several New Payer ID entries with question marks; it is not yet clear how Envoy will be making the transition for these states—that is, completely changing how the claims are routed (which would mean a Payer ID change) or simply changing the routing on the back end. Updates will be posted as they are available.
